Subject: EMI and the Buy American Act

With regards to the Buy American Act, ECR International manufactures ductless split system air conditioners in the United States under the EMI (Enviromaster) brand. The single and dual zone condensers, wall, cassette and universal air handlers when designated with a (-U) extension are manufactured in the Utica, New York facility. In addition, EMI's top discharge condensers are also manufactured in the Utica facility. These products comply with "The American Recovery and Reinvestment Act" under the manufactured goods portion of Section 1605, or as COTS (commercially of the shelf items).

Please keep EMI ductless products in mind for your Buy American requirements. **Please note on the purchase order, "Buy American Act" to ensure the proper equipment is provided.**

Thank you for considering EMI ductless split systems. If you have any questions, please do not hesitate to contact us.

Sincerely,

Thomas J. Legutko
Business Director A/C Systems
